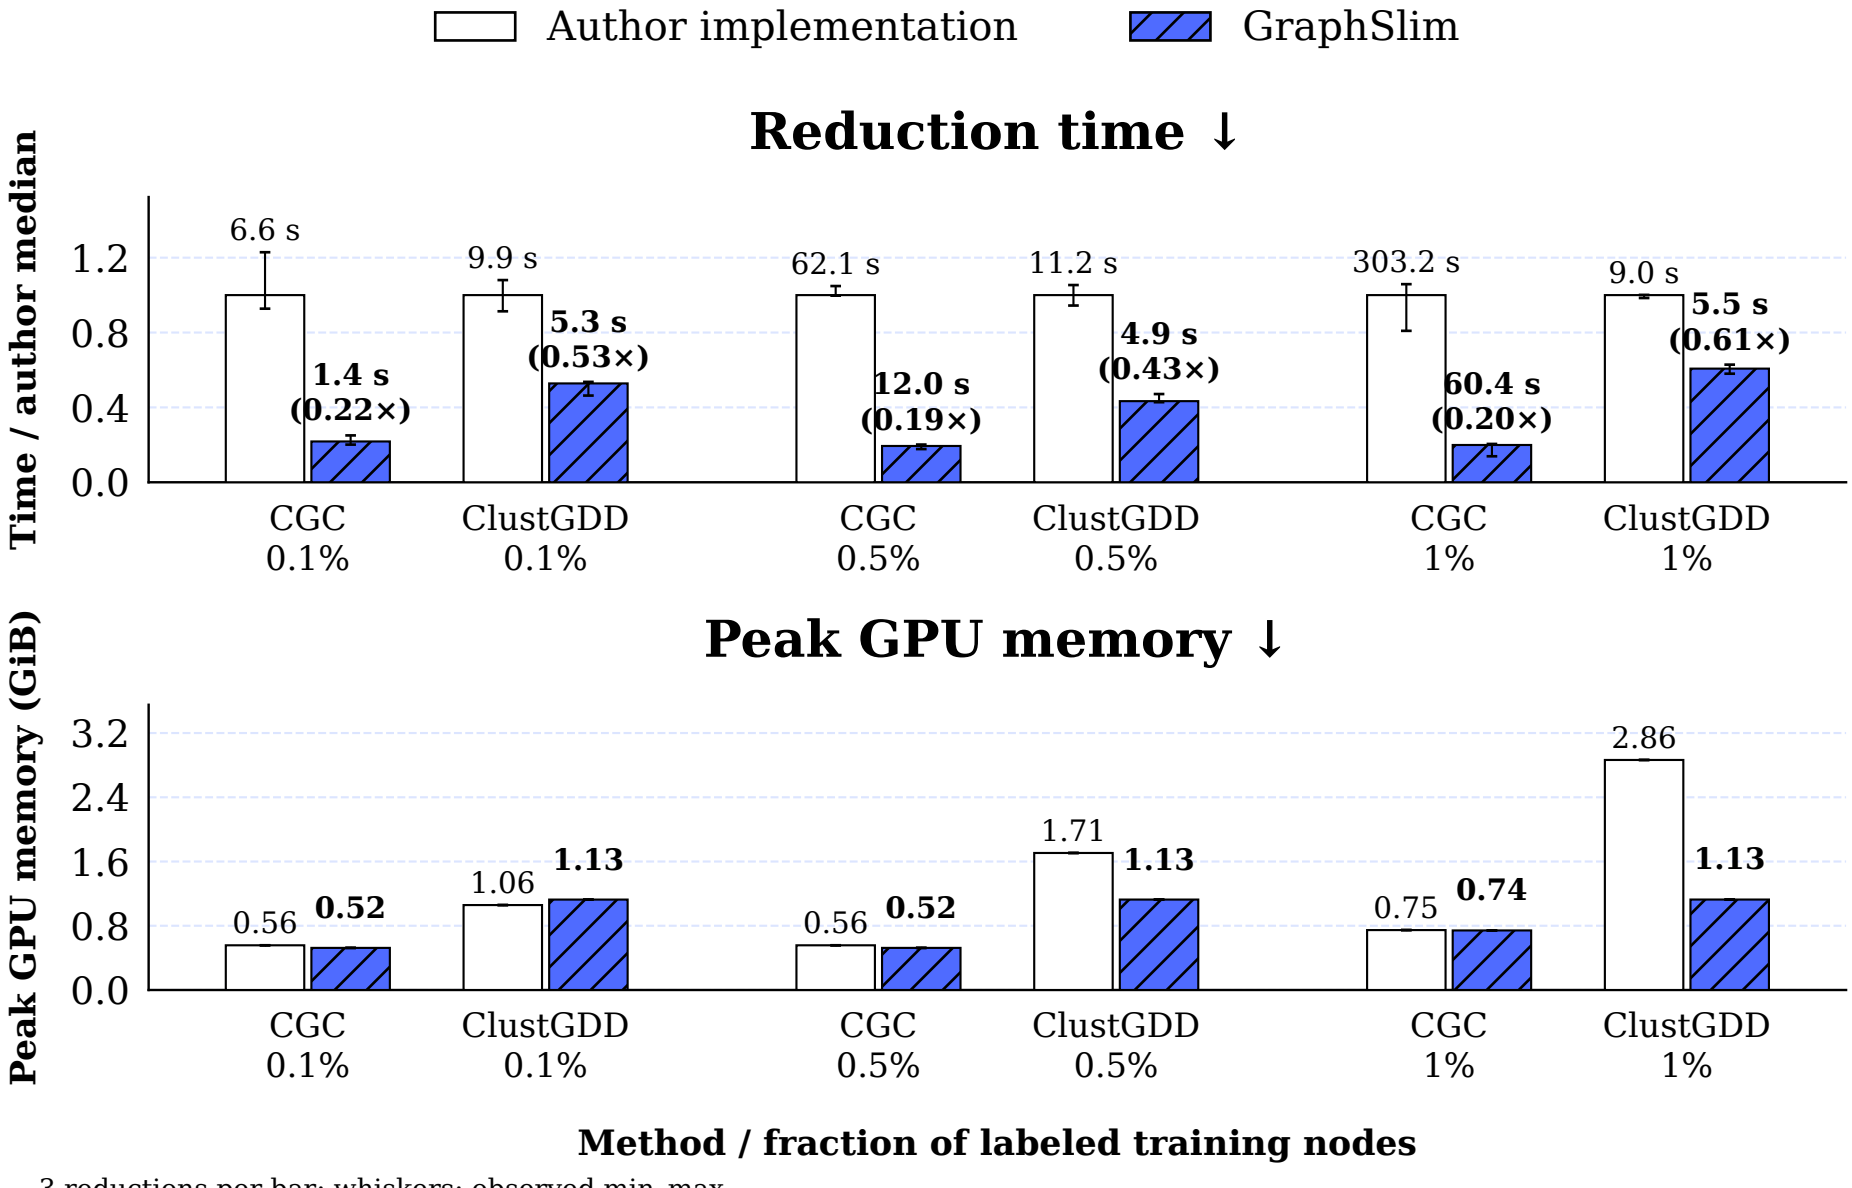
GraphSlim on ogbn-arxiv

Lower is better ↓

169,343 nodes · full undirected graph · one RTX PRO 6000 Blackwell



3 reductions per bar; whiskers: observed min–max.
Time is relative to the author's median (1); both metrics: lower is better.

0.1%, 0.5%, 1% of training nodes retain 90, 454, 909 nodes.
Timing and GPU peaks exclude downstream GCN evaluation.
